

Akimbo™

Angular Stand for Apple iPad

iPad

Design Registration
Pending

Product Code: IPAK180

The iPad has become an integral part of the teaching classroom environment. When lying on the desk, it can force the pupil to work in a variety of awkward positions, such as head and upper body bent forward or sideways, resulting in bad posture. Other adverse effects are glare on the screen which can result in eyestrain. This all contributes to the students discomfort and can cause musculoskeletal injury.

The iPad **Akimbo™** Stand is ideal for education and the teaching environment and has been specially developed as an anti glare stand for use in the classroom. The angular stand eliminates glare from light fittings and sun light reflections. The iPad can be used horizontally or vertically at an angle of either 30° or 45° thus eliminating bad posture.

The **Akimbo™** stand is tough and robust as it is manufactured using 2mm thick aircraft aluminium which can withstand the toughest school environment. The iPad **Akimbo™** stand is finished in anodised silver and is fitted with foam pads to protect the iPad from being scratched.

Features & Benefits

- Ideal and durable for the classroom environment
- Robust universal angular stand, 30° and 45° surfaces
- Eliminates glare from light fittings and sunshine
- Prevents bad posture and discomfort
- Manufactured from high grade 'aircraft' aluminium
- Foam pads prevents scratching of iPad surface
- Can be stacked when not in use
- Lightweight and easy to use
- Stare without the glare
