Rack MiniLOCK™

19" Rack Mounts for Mac Mini Server

Design
Registration Pending

Product Code: RKML019

The 19" Rack MiniLOCK™ has been specifically developed to fulfil the need for a secure 19" rack mount system for the Mac Mini and Mac Mini Server. One or two units can be secured in a purpose made 1U high racking enclosure.

The 19" Rack MiniLOCK™ is constructed using 2mm steel and is bolted into standard 19" racking using 4 x M6 security screws. The security tool is provided. All units come with a high security lock for locking the Mini Servers in place.

It is possible to secure the mouse, keyboard and other cables at the rear of the unit.
