

SecureDOCK™

iPad

Secure Docking for the Apple iPad

Registered Design

No. GB 4018358

Product Code: IPSD160

The iPad is the most revolutionary tablet computer on the market, making it extremely desirable to thieves. Due to its compact size, this valuable computer can be stolen in seconds.

The **SecureDOCK™** is ideal for corporate displays and the educational market. The aluminium sleeve can be fixed to standard wall or desk VESA mounting kits. A stand-alone desk mounting kit is provided for portrait and landscape display options. The unit also has a built-in 'security slot' and can also be secured via a conventional laptop security cable.

The **SecureDOCK™** secure sleeve is carved from solid aluminium and anodised in a range of colours: Black, silver and red. A high-security anti tamper lock is provided in keyed alike.
