

# ToolMARK™

Professional Property Marking Tags

Product Code: TM080

**ToolMARK™** is a professional anti-theft tagging system which permanently fixes to all surfaces including plastic and metal. The plastic tag is laser-engraved with company details, logo, serial number and/or barcode.

The **ToolMARK™** tag is made of a vandal-resistant plastic, which breaks into small pieces if an attempt is made to remove it. Any attempt to remove the tag will deface the equipment, thus making resale suspicious.

The sign is mounted using fast-drying adhesive that melts the two surfaces together. The surface has a protective plastic coating, which is used when mounting the sign, ensuring that no glue will stick to your fingers.

**ToolMARK™** is available in small and large sizes (small is 10mm x 30mm or 15mm x 35mm, large is 18mm x 55mm or 25mm x 50mm) and special sizes can be arranged upon request. Surface faces are available in silver, black, white, blue, red and yellow.

## Features & Benefits

- Permanently affixes to any equipment
- Enhances corporate image
- Powerful visual deterrent
- Laser engraved text and/or logo
- Low cost solution
- Can include company name, logo, postcode and sequential asset numbers
