Targus Weather-Resistant Slipcase for MacBook

Targus

Now that you've spent your hard-earned cash on a laptop, we understand that you want to keep it safe and accessible, not to mention looking rather stylish at the same time. Our clever designers have come up with a simple solution specially designed for the MacBook. It is the slim-line case with the ultimate protection: the hard finish EVA outer shell acts as a protective barrier. Inside the case is lined with a unique foam construction system to safeguard the laptop from damage.

The case has been thoughtfully designed to fit in with your lifestyle and can be used on its own or slipped inside another bag. If you are on the move and using your laptop, the case can be used as a lap-desk by fully opening the side zips (also allowing you to power your laptop alongside). Alternatively use as a simple slip with the Velcro flap giving quick access. Clever!
